

TOWN OF ST. JOHN, LAKE COUNTY, INDIANA

ORDINANCE NO. 1003

BEING AN ORDINANCE ESTABLISHING A DISASTER PLAN FOR THE TOWN OF ST. JOHN, LAKE COUNTY, INDIANA.

WHEREAS, the Town Council of the Town of St. John, Lake County, Indiana, requested all of the various departments of the Town to provide input into the preparation of a disaster plan for the Town of St. John, Lake County, Indiana; and

WHEREAS, the Town departments involved in order to coordinate tactics and responsibilities in the event of a disaster are the Fire Department, the Police Department, the Public Works Department, the Building Commissioner, and the Town Council; and

WHEREAS, the contemplated disasters to be covered by the plan are large fire/explosion, building failure, tornado, hazardous materials incident, winter storm, mass casualty, earthquake, floods, and civil disobedience; and

WHEREAS, the Town Council of the Town of St. John, Lake County, Indiana, has been informed that the disaster plan is now complete and covers the foregoing disasters, contains tactical objectives for each department, as well as responsibilities for each of said town departments in the event of any such disaster.

NOW, THEREFORE, BE IT ORDAINED by the Town Council of the Town of St. John, Lake County, Indiana that the disaster plan which follows shall be the disaster plan of the Town of St. John, Lake County, Indiana, and shall control tactical objectives, duties, and responsibilities of the Fire Department, the Police Department, the Public Works Department, the Building Commissioner, and the Town Council, in the event of a natural and/or other disaster which disasters shall include large fire/explosion, building failure, tornado, hazardous materials incident, winter storm, mass casualty, earthquake, floods, and civil disobedience as follows:

(Here insert).

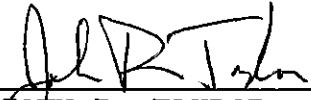

BE IT FURTHER ORDAINED that if any section, clause, provision, or portion of this ordinance shall be held to be invalid or unconstitutional by any court of competent jurisdiction, such decision shall not affect any other section, clause, provision, or

portion of this ordinance.

BE IT FURTHER ORDAINED that this ordinance shall take effect and be in full force and effect, from and after its passage by the Town Council of the Town of St. John.

PASSED AND ADOPTED by the Town Council of the Town of St. John, Lake County, Indiana, this 25th day of April, 1996.

TOWN COUNCIL, TOWN OF ST. JOHN,
LAKE COUNTY, INDIANA

JOHN R. TAYLOR

FRED J. KISH

By telephone, any other law enforcement agencies whether by radio communication or police department computer modem.

HOW DO YOU NOTIFY DEPARTMENT PERSONNEL OF AN EMERGENCY DURING WORK?

Telephone, pagers, radio communications.

AFTER HOURS?

Pager and telephone.

BRIEFLY EXPLAIN HOW YOUR DEPARTMENT WILL GATHER, UTILIZE, AND DEPLOY PERSONNEL FOR THE TACTICAL OBJECTIVES ASSIGNED TO YOUR DEPARTMENT.

Contact all police personnel whether on duty or off duty and request that they go to the established EOC location. The police department will notify the Chief of Police or his designee to respond immediately to the designated EOC. Police personnel will establish a perimeter of control and will create an emergency entrance and exit to all authorized personnel and vehicles at the incident location. Police personnel will further re-route non-authorized personnel outside the perimeter of location of incident. The Chief of Police or his designee will inform all field supervisors of additional tasks that may be needed. The dissemination of information to other police personnel will be by means of chain of command.

DETAIL ANY SUPPORT FROM OTHER AGENCIES YOU MAY NEED TO COMPLETE YOUR ASSIGNED TASK(S):

If further personnel are needed to secure a designated area, St. John Police Department will contact surrounding law enforcement agencies.

BRIEFLY EXPLAIN HOW YOUR DEPARTMENT WILL GATHER, UTILIZE, AND DEPLOY PERSONNEL FOR THE TACTICAL OBJECTIVES ASSIGNED TO YOUR DEPARTMENT.

The St. John Police Department will immediately notify the Chief of Police or his designee. The police department then will notify all police personnel whether on or off duty reference said disaster. The first units arriving upon the scene of the disaster will notify the EOC of the type of material, if possible, and the size and amount of said hazardous material at the incident location. The police department will further set up a perimeter around the hazardous material incident in line with the threat of exposure to surrounding personnel. The size and distance of the perimeter will be decided upon by the information of the hazardous material once the substance has been identified. The first arriving police units will keep in mind to approach up wind from the disaster area to avoid becoming contaminated by said hazardous material. The police department will be responsible for evacuation of all personnel that are at risk due to the hazardous material incident. The evacuation will be conducted by notification of local radio and T.V. stations as well as police vehicle PA systems and door to door notification of surrounding personnel if it is deemed the only way of assuring notification evacuation of that personnel that may be at risk. Any and all further instructions in reference to the perimeter in regards to its size and/or its length of time will come from the EOC location which will then be transcended to all police department personnel and assisting agencies by way of chain of command.

The first responding units responding to the hazardous material location will attempt to identify the type of material, quantity, and exposure problem and report immediately to the EOC location. Once the exact location of hazard has been identified the police department will establish a perimeter and evacuate all personnel that may be at risk. The police department will re-direct all unauthorized traffic around the incident location as well as establishing a restricted entrance and exit for authorized emergency personnel and vehicles.

The police department will make a decision as to what surrounding areas and personnel may be at risk because of the hazardous material incident. The police department then will attempt evacuation by contacting the subjects at risk in the following manner: Direct phone call to the residents' location; contacting the radio as well as local T.V. stations with the information; sending police units to that location and implementing the police PA system to give warning for residents in that area to seek shelter; direct contact by police personnel and assisting agencies at the residence to personally inform them that they must leave the area if all other remedies have been exhausted and unable to make contact for personnel that may be at risk. The Chief of Police or his designee will have been contacted and told of the location of the EOC area. All information at the evacuation site will be communicated to the EOC center and dissemination of instructions will go to all police personnel and assisting agencies by way of chain of command and field supervision.

Once the police department is notified of trapped or endangered persons the police unit will attempt to respond to that location to confirm or negate said report. Because of inclement weather and impasse appears to be impossible to the specific area, then the responding unit will communicate this information to the EOC center and advise. If police unit can make contact at the location where the reported trapped or endangered person is located, they will make an assessment, relay information back to the EOC who in turn will provide further information based on the assessment. The responding unit will also advise the EOC of the road conditions to the location.

By telephone, any other law enforcement agencies whether by radio communication or police department computer modem.

HOW DO YOU NOTIFY DEPARTMENT PERSONNEL OF AN EMERGENCY DURING WORK?

Telephone, pagers, radio communications.

AFTER HOURS?

Pager and telephone.

BRIEFLY EXPLAIN HOW YOUR DEPARTMENT WILL GATHER, UTILIZE, AND DEPLOY PERSONNEL FOR THE TACTICAL OBJECTIVES ASSIGNED TO YOUR DEPARTMENT.

First and most important, the police department is dedicated to providing assistance in any and all traffic accidents that consists of fatalities and/or injuries. The police department will respond to all accidents during a winter storm emergency where medical attention is needed or removal of vehicles from the roadway. All other accidents deemed property damage and the vehicles involved are able to exit that location by way of their own power, will then report their accidents to the St. John Police Department when the emergency weather conditions have subsided or the situation has normalized. The police department then will document said accidents.

Pager and telephone.

BRIEFLY EXPLAIN HOW YOUR DEPARTMENT WILL GATHER, UTILIZE, AND DEPLOY PERSONNEL FOR THE TACTICAL OBJECTIVES ASSIGNED TO YOUR DEPARTMENT.

In the severest weather conditions the St. John Police Department will have many tasks to perform for the welfare of the community. If personnel are available, the police department will respond to all security problems when manpower permits. This will be aside and apart from actual crimes in progress, i.e., burglary, theft, etc. The St. John Police Department, if possible, will prioritize high risk locations and attempt to secure them against perpetrators by way of assisting agencies that may be called upon in situations where additional manpower could be utilized. Each security location will report any and all incidents at their location to the EOC. The specific location will be under the control of the highest ranking officer at that location.

VICTIM MANAGEMENT

1. ALL INCIDENTS WITH MORE THAN THREE (3) VICTIMS WILL NORMALLY UTILIZE THIS GUIDE.
2. THREE (3) SPECIFIC SECTORS MUST BE ESTABLISHED.
 1. TRIAGE
 2. TREATMENT
 3. TRANSPORTATION
3. ASSIGN SECTOR OFFICIALS FOR #2 ABOVE.
4. NOTIFY HOSPITALS OF INCIDENT AND APPROXIMATE VICTIM COUNT.
5. SECTOR RESPONSIBILITIES ARE AS FOLLOWS:

A. TRIAGE SECTOR

1. ASSIGN TRIAGE STAFF AT RATE OF ONE (1) TRIAGE OFFICER: FIFTEEN (15) VICTIMS.
2. EQUIP EACH TRIAGE OFFICER WITH TAGS AND ASSISTANT (NON-E.M.T.) - IF PRACTICAL.
3. DIVIDE SITE INTO MANAGEABLE AREAS AND ASSIGN A TRIAGE OFFICER TO EACH SITE.

B. TREATMENT SECTOR

1. PHYSICALLY ESTABLISH RED, YELLOW, GREEN AND BLACK TREATMENT AREAS.
2. STOCK EACH AREA WITH SUPPLIES FROM RESPONDING AMBULANCES AND AUXILIARY SUPPLIES.
3. STAFF EACH AREA AT THE FOLLOWING MINIMUM RATIOS:

GREEN - 1 E.M.T. : 8 VICTIMS

YELLOW - 1 E.M.T. : 5 VICTIMS

RED - 1 E.M.T. : 2 VICTIMS

4. OBTAIN STRETCH BEARERS FROM MANPOWER STAGING AT A RATIO OF TWO (2) BEARERS PER FIVE (5) VICTIMS.

C. TRANSPORT SECTOR

1. LOCATE ADEQUATE LOADING ZONE FOR AMBULANCES.
2. ESTABLISH AN AMBULANCE STAGING AREA NEAR LOADING ZONE.
3. COMPLETE TRANSPORT TRACKING SHEET AS VICTIMS ARE LOADED.
4. CONTACT RESPECTIVE HOSPITAL THAT AMBULANCE IS ENROUTE WITH NUMBER AND COLOR TAG OF VICTIMS.
